

IMPORTANT ITEMS CUT FROM D. C. SCHOOL BILL

Important items affecting the Washington schools were cut out of the second deficiency bill in the House yesterday through the efforts of Congressman Saunders of Virginia, who made points of order against certain appropriations.

Chief among the items thrown out was a provision for \$25,000 for the night schools and \$1,000 for continuing expenses.

Another item stricken out provided \$2,500 each for two additional junior high school principals.

As a result of these cuts in the bill, it carries now only \$23,966 for additional school teachers in the Wash-

ington schools. Efforts will be made to get the House to restore some of the lost school items. This failing, the Board of Education will appeal to the Senate to include the items in its bill, thereby throwing the disputed question into conference between the two houses.

CANADIAN EMBARGO ON PAPER HAS BEEN LIFTED

The Canadian embargo on shipments of paper into the United States has been lifted by the paper controller at Ottawa, it was stated today in dispatches to the State Department. Shipments of paper are being made to the United States as rapidly as they can be loaded into cars, it was further stated.

CONVERTS FALL OFF SINCE PROHIBITION

Drought Kills Stock Arguments of Old-Time Evangelists.

BOSTON, Jan. 30.—Prohibition has affected the number of converts at Boston revival meetings and especially at the Trotter meetings in Tremont Temple.

This was announced by the Rev. D. R. D. Lookrow, leader of the Tremont Temple Brotherhood, under whose auspices the Trotter meetings were held.

"The Trotter revival was very successful, but we have had demonstrated to us that prohibition has lowered the number of persons converted at these meetings," he said.

"Many men have taken to drink occasioned by trouble in their own home or otherwise, then come down hill and visited one or more of these revival meetings. They were converted for this type of offenders. Now this shows you the usefulness of prohibition. We do not have any more of these drunkards who went to reform."

"People ask why we do not get more converts."

"We have been very successful in awakening dull consciences in these Trotter meetings and converting many to the right path. But what I want to urge is that prohibition has proven itself a mighty factor in keeping men out of tempting influences of the saloon. I believe Boston is a better place to live."

"The revival meetings of the future will be appeals to the common sense of the individual and to men and women who have not done wrong through drink."

The heads of the various departments of The Washington Times together with the members of the display and classified advertising department gave a farewell luncheon at Harvey's yesterday to Roland Clear, when he leaves the advertising management of The Times to go to Brockton, Mass., as advertising and sales manager of the Field and Flint Shoe Company.

SALARIED MEN DUCK YOKE.

CHICAGO, Jan. 30.—The yoke of matrimony fits better now on the collarless neck of the wage earner than over the white collar of the salaried man. Many men are now permitted to marry at 25 per cent below normal.
